PROFESSIONAL SUMMARY

Collaborative Software Engineer delivering production-ready web and mobile solutions with a proven ability to lead project lifecycles from concept to deployment. Adept at bridging the gap between technical execution and client vision, fostering collaborative environments, and driving team-oriented problem solving. Focused on building responsive applications using the MERN stack, Next.js, and TypeScript, backed by an active portfolio of 60+ GitHub repositories and a strict commitment to clean code architecture.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Tailwind CSS, Redux
Backend	Node.js, Express.js, MongoDB, SQL (PostgreSQL/MySQL), Oracle, PHP, Prisma ORM, JWT Auth
Mobile	React Native, Expo
Tools & Tech	Git, GitHub, Vercel, Oracle Cloud (OCI), REST APIs, CI/CD, Agile, Jira, Linux Basics

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer — Self-Employed, Karachi, Pakistan Feb 2026 – Present

Developing custom digital solutions for small businesses and startups, managing projects from initial design to Vercel/Cloud deployment.

- **Zentrixa Marketing:** Engineered and deployed a premium, app-like portfolio website (zentrixmarketing.vercel.app) for a creative marketing agency using React.js and Tailwind CSS, successfully delivering the project within client deadlines.
- Managed end-to-end communication, successfully translating non-technical client visions into polished, conversion-focused digital products.
- Maintained 60+ public GitHub repositories spanning web, mobile, and AI projects, demonstrating consistent learning and technical breadth.

KEY PROJECTS

Asaan Taqreeb (Event App) — asaantaqreeb.vercel.app

A comprehensive cross-platform mobile application designed to help users browse and filter local event vendors in Karachi.

- Spearheaded the frontend mobile architecture using React Native to deliver a seamless cross-platform user experience.
- Engineered a scalable backend infrastructure utilizing Node.js, MongoDB, and an Oracle server.
- Implemented complex filtering logic for vendor discovery to ensure optimal performance.
- Conducted rigorous testing phases to prepare the product for its final launch and defense.

Missing Link (AI Resume Analyzer) — missinlink.vercel.app

An AI-powered tool that evaluates a user's resume against a specific job description to provide an ATS compatibility score and identify missing keywords.

- Engineered the core analysis engine using Next.js, integrating 2 AI APIs (Groq and Gemini) to process and evaluate complex text inputs.
- Designed an intuitive UI where users can seamlessly input their data and receive actionable feedback to improve their job applications.

AI Journal App — moodbetav2.vercel.app

A sentiment analysis tool that categorizes user entries and provides emotional feedback.

- Integrated AI models via APIs to analyze and categorize user text inputs.
- Built a robust full-stack architecture using Next.js and Prisma.

EDUCATION

Bachelor of Science in Software Engineering — SMIU, Karachi 2022 – 2026

Relevant Coursework: Web Engineering, Database Management, Software Design.
